

peppers love full sun
which makes them great
pot plants!

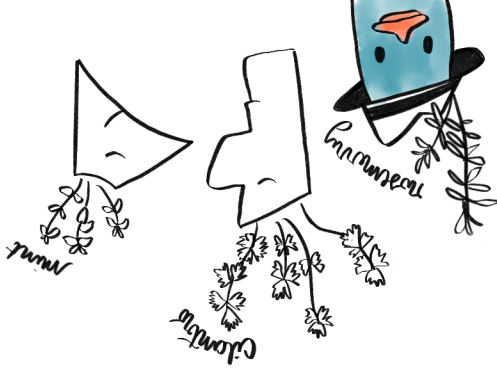

Sugar and spice and
everything nice that's
what hot girls are made of

Lastly,

I couldn't not pass up
the adorable strawberry
pot

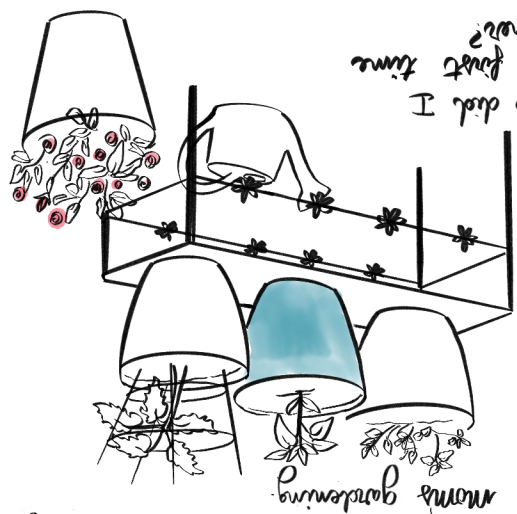

So, after finding some
amazing deals on FB
marketplace its all set!

Well there's 104 days of
Minnesota planting season...
It's more like 140 BUT STILL!
I had to get my
Thineys and Herbs
planted ASAP!

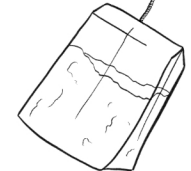

Now with a lot of
water, sunshine, and
love hopefully I'll
still have a garden in
a few months!

Having a patio is a huge
deal to me! Some space outside
to enjoy my tea. I wanted it
to be full of life and I have
wonderful childhood memories of my
mom's gardening.

AM I YOUR
CUP of TEA?
